

Strengthening the power
of education philanthropy.

grantmakers^{for}education 

Better, together.

Grantmakers for Education is the nation's largest, most dynamic and most diverse member network of education philanthropists. We provide: Shared resources. Collective insights. Constructive collaboration. Together, our members collaborate, discuss and act on important issues in public education.

SUCCEEDING TOGETHER

A powerful legacy. A clear path forward.

Over 20 years of continual evolution, Grantmakers for Education has created and elevated opportunities for education philanthropists. We've built a network unparalleled in size and scope, and we've become a trusted source for influential resources on key education issues. Our impact groups and collaborative community facilitate real change.

Now, societal forces are challenging the traditional role of philanthropy. How do grantmakers prepare and adapt? How can they maximize their impact?

Working together, we:

- *Capitalize on our diverse member network, providing strength in numbers and inviting all voices to the table.*
- *Maintain sharp focus on upcoming trends in education philanthropy.*
- *Break down silos to increase cooperation across sectors.*
- *Bridge the gap between now and next.*

We are future facing, acting with purpose to embrace a culture of change and innovation.

We are focused on impact. We act decisively and are selective in how we channel our time and energy. We use technology to increase value and strengthen connections, and we use data to drive decision-making and inform our choices.

We believe that when everyone in our diverse network has the opportunity to contribute to the conversation, and everyone puts the needs of learners above all, big things happen.

Please lend your voice to this critical conversation.

What our members say:

Grantmakers for Education programs...

"...broaden my perspective
on the variety of approaches
to grantmaking."

"...allow me to think beyond the
specific set of issues and concerns
that frame my work to consider the
larger field of education."

"...are a place for conversations
grounded in new thinking about
the role of philanthropy in
advancing education."

"...make me think more about how to
collaborate with other funders."

Catalyzing Change

We help our members identify and prepare for what's next. With our finger on the pulse of our diverse network and our eye on the broader horizon we keep our members informed of relevant and pressing issues, equipping them with the tools and knowledge required to shape the future as they adapt to the changes impacting our world.

At Grantmakers for Education, we don't shy away from tough conversations. In fact, we encourage them. Why? Because tough conversations catalyze change. We create an informal, impartial and balanced environment for our members to ask. To challenge. To share. To take what they do well, and do it better.

Our goal:

Strengthen our members' ability to improve outcomes and expand opportunities for all learners.

Impact Groups

Grantmakers for Education's impact groups are dynamic, energizing and inspiring learning communities that leverage the network of education philanthropists within GFE. Their purpose: Bring members together for meaningful dialog and concrete action on critical current and upcoming challenges in public education.

Webinars & Convenings

Online and in-person dialog and activities aim to support grantmakers in making more impactful and intentional investments. Programs go below the surface, provoke new thinking, generate interaction and inspire action.

In-Depth Issue Analysis

With an eye on the broader horizon, we keep members informed of current, pressing education issues while also identifying strategies to help address future challenges. To that end, we regularly provide benchmarking reports, case studies, funders' guides and additional co-created resources.

Online Community

To ensure members stay abreast of the most up-to-date research and news in education philanthropy, we provide an online platform to share events and resources, and engage with members and the broader community on social media.

ELIGIBILITY & DUES STRUCTURE

Welcoming New Voices.

GENERAL MEMBERSHIP

General membership to Grantmakers for Education is open to grantmaking entities that provide charitable support to causes across the education spectrum. In order to be eligible for membership, an entity must devote at least 30% of its annual budget to grantmaking or award more than \$100,000 in grants annually.

GFE membership dues are calculated on the total grantmaking budget and program operation costs from the most recently filed organizational 990 form. *Due to the unique structure of community foundations, membership fees are based on the discretionary budget rather than the total grantmaking or education grantmaking budgets.*

This dues schedule is valid starting July 1, 2019.
